# CARDIOVIT FT-2

Designed for the hospital:

- Advanced cybersecurity features
- Extensive connectivity
- Optional ultrasound spirometry and A4 thermal printer

## DESIGNED FOR HOSPITAL USE

**HIGHLY HYGIENIC:** The seamless surface of the large touchscreen is easy to clean. No keyboard is necessary to operate the device. All cables are neatly stowed away in the trolley.

### ADVANCED CYBERSECURITY:

- Security-hardened Linux kernel to minimize the risk in case of cyberattacks
- Configurable access control with user name, password and privileges to prevent unauthorized access
- Wi-Fi protocols including certificate-based authentication to ensure secure access to the hospital IT infrastructure

### EXTENSIVE CONNECTIVITY:

Bidirectional communication for easy data access via worklist or PDQ, and fast transmission of all reports to EMR/HIS systems.

**CUSTOMIZABLE:** The CARDIOVIT FT-2 provides an optional thermal printer, allowing to choose the best configuration for paper-based or paperless hospital workflow.

## HIGH-END DIAGNOSTIC TOOLS

- Resting ECG with the SCHILLER ECG interpretation algorithm ETM including ETM Sport, automatic interpretation for athletes
- Resting rhythm recording up to 20 minutes
- Spirometry, based on the ultrasound technology of the SpiroScout SP plus (optional)

## ADD SPIROMETRY TO YOUR CARDIOVIT FT-2

With the SpiroScout SP plus (optional), the CARDIOVIT FT-2 also becomes a spirometer. Thanks to GANSHORN's ultrasound technology, spirometry recordings are highly accurate and the sensor is maintenance- and calibration-free.

The spirometry option offers FVC, SVC and MVV with a large selection of reference standards, pre and post tests, as well as interpretation of the FVC results. The device provides feedback on the procedure's quality during the test and after each trial. An incentive screen is included for trials with children.

Ultrasound spirometer  
SpiroScout SP plus

Large 15" multi-touch display: highly hygienic, easy to clean and easy to use

Anatomical hook up adviser, colour-coded lead quality check and lead reversal detection facilitate ECG acquisition

Spirometry compliant with 2019 ATS/ERS guidelines

Large surface for writing

Optional high resolution A4 thermal printer

Cables tidily stowed away

Dedicated basket for accessories storage

Easy-glide wheels for smooth manoeuvring
